The Commonwealth of Virginia is committed to providing a quality education for all students. The Virginia School Report Card provides transparent information about the performance of Virginia's schools. School accreditation and federal accountability ratings for a specific school year are based on student achievement on tests taken during the previous academic year.

School Division - Fall Membership

School membership (enrollment) is reported on September 30 of each school year.

Assessment Results at each Proficiency Level by Subgroup

The Virginia Assessment Program includes Standards of Learning (SOL) tests and other statewide assessments in English, history/social science, mathematics, and science. The tables below provide information for the three most recent years on the achievement of students on these tests, including percentages of students who demonstrate proficiency and advanced proficiency. Annual accountability ratings are based on achievement during the previous academic year or combined achievement from the three most recent years. **Only student subgroups represented are listed.**

Four-Year Virginia On-Time Graduation Rate

The Virginia On-Time Graduation Rate expresses the percentage of students who earned a Board of Education-approved diploma within four years of entering high school for the first time. Percentages are based on longitudinal student-level data and account for student mobility and retention and promotion patterns.

Career and Technical Education

Secondary schools report the number of credentials earned by students for passing occupational competency assessments recognized by the National Occupational Competency Testing Institute (NOCTI), state licensure examinations, industry certification examinations, and workplace readiness skills assessments. Prior to 2010-2011, workplace readiness skills assessments were included in the Industry Certification category, but now are reported separately.

National Assessment of Educational Progress (NAEP)

The NAEP, also known as The Nation's Report Card, is a national assessment of student achievement that is taken by samples of students representative of each state and of the nation. Tests in reading and mathematics are administered every two years and provide a means of comparing the progress of states in raising student achievement.

School Division - Percentage of Expenditures for Instruction

State law requires the Virginia Department of Education to include in the Annual School Performance Report Card the percentage of each division's annual operating expenditures allocated to instructional costs. Instructional costs include the salaries and benefits paid to teachers, teacher aides, principals, assistant principals, librarians, and guidance counselors; expenditures for textbooks; and expenditures for students to participate in regional and virtual instructional programs. The methodology for allocating each division's expenditures to instructional and non-instructional costs is consistent with the Standards of Quality funding formula as approved by the General Assembly. Multiple factors must be considered when comparing the level of school division expenditures for instruction. These factors include economies of scale, geographic size, and the number of students requiring special services. For example:

- Smaller school divisions may have similar administrative and support costs as larger divisions but these non-instructional costs are spread over a smaller expenditure base.
- Geographically large but sparsely populated school divisions may have higher per-pupil transportation costs because of travel distances and mountainous topography.
- Divisions with large populations of at-risk or special needs students must provide support services that are required or that raise student achievement.
